

KWC

KWC
FIT

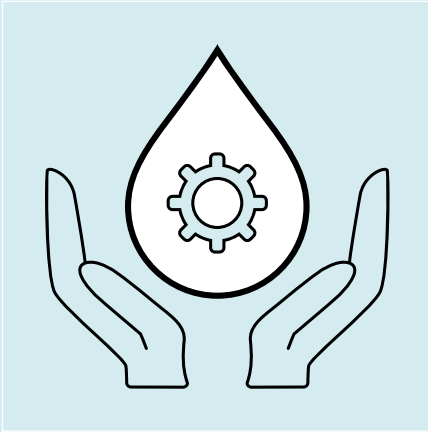

BEAUTY WITHOUT FRILLS

You reach perfection when there's nothing else to leave out. KWC FIT – a faucet pared down to the essentials. Ingenious functionality, top-quality workmanship, refined details, a pleasant feel and an attractive price – not to mention the aesthetics that visually emphasize the art of simplicity.

Without any superfluous details, the essentials really come into their own – in terms of both appearance and experience. Take the gentle lever movement, which makes this faucet remarkably smooth to use.

KWC +

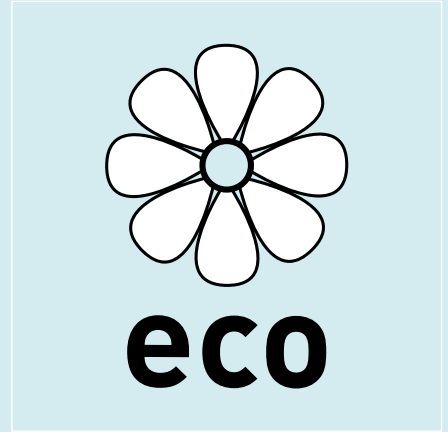

HealthProtect

Better hygiene and unchanged water quality: HealthProtect highlights the strict standards we set ourselves to ensure that our faucets do not affect the taste and smell of your water – that is why we use high-quality materials (metals, plastics) that are ideally suited for contact with water.

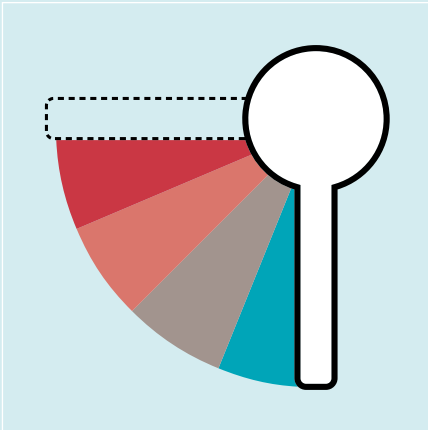

GlacierFinish

Robust surfaces and high-quality craftsmanship: GlacierFinish is equipped with durable surfaces that are exceptionally robust and feature an attractive polished shine that you can enjoy for years to come.

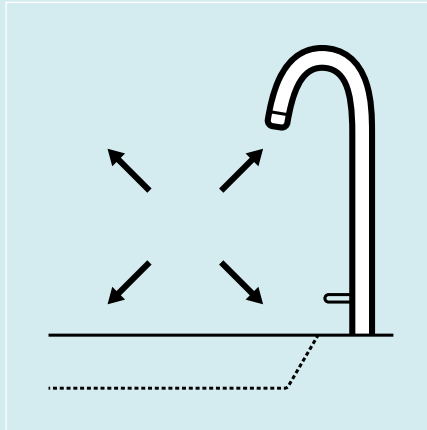

EcoProtect

For economical water consumption and responsible use of resources: EcoProtect represents our commitment to promoting a sustainable lifestyle.

CoolFix

Intelligent and efficient resource usage: With CoolFix, when the lever is in the center – the most common position – the water runs cold. Only when the lever is turned to the left, the water runs warm.

OptimalSpace

Practical yet elegant ergonomic design: OptimalSpace features long, tall spouts that provide ample space for washing and or working.
